

## Business Deposit Rates

RATES IN EFFECT AS OF: Friday, March 28, 2025

We use two terms to explain how much interest we pay on your deposit accounts.

- **Interest Rate:** Annualized percentage rate we pay on your account, and does not reflect compound interest, which is any interest paid on interest you've earned.
- **Annual Percentage Yield (APY):** Annualized percentage rate we pay on your account, and includes compound interest. APY may be higher than the Interest Rate due to compound interest.

<sup>3</sup>Interest is compounded daily and, unless you choose differently, will be paid on your CD at maturity or annually if the term is more than 12 months. You may instead choose to have your interest paid on a monthly, quarterly or semiannual basis; however, withdrawing interest before maturity will reduce the APY.

<sup>4</sup>There is a penalty for early withdrawal.

<sup>5</sup>Earn CD relationship rates on your CDs when linked to an eligible Chase business checking account at CD origination and at each CD renewal and renegotiation (the linked business accounts must share a common business owner that is a direct owner of the business). Eligible accounts include: Chase Business Complete Checking, Chase Performance Business Checking, Chase Platinum Business Checking, and Chase Analysis Business Checking (interest-bearing counterparts included, where applicable). Otherwise, standard rates apply. Public funds entities should contact their banker for applicable CD rates

<sup>6</sup>CD ladders are a group of four CDs opened at the same time for the same amount but with different terms.

A copy of the Deposit Account Agreement is available upon request. Fees could reduce earnings. Rates and balance tiers for checking, savings and CDs are applicable as of the effective date, and may change at our discretion.
